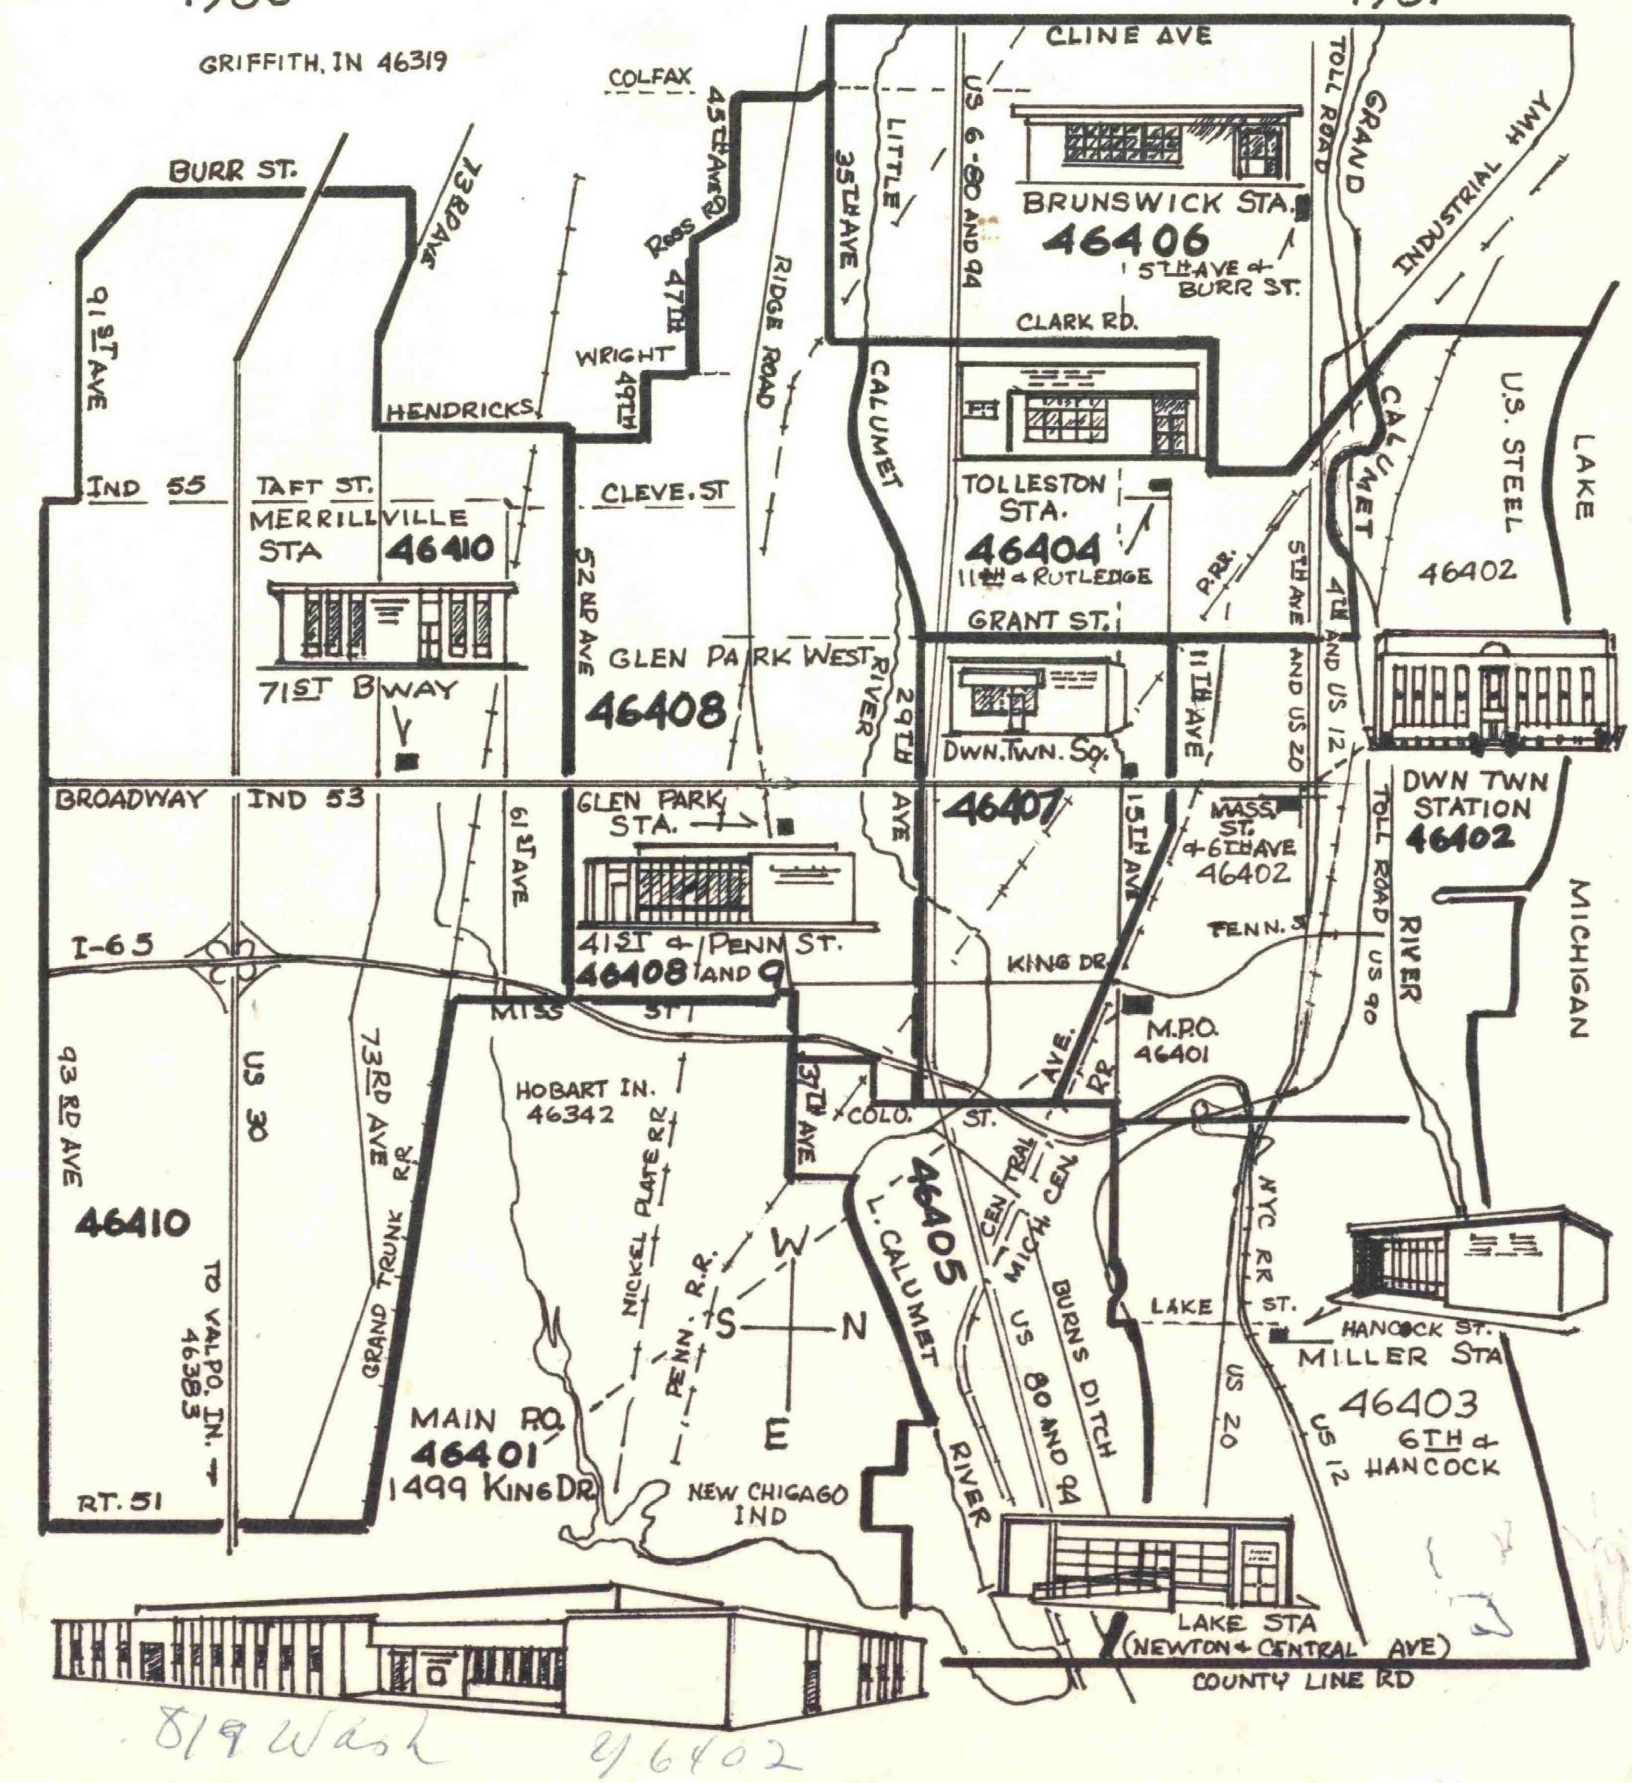
GARY, INDIANA ZIP Code Directory

GARY'S 75TH YEAR DIAMOND ANNIVERARY

1980 1981



819 Wash 46402

HOW TO USE THIS DIRECTORY

In this directory, the three digits appearing at the top of each column should precede the two digits listed opposite the street entries. Where no house numbers are shown, the entire street is within the area of the ZIP Code indicated.

When the word "Out" appears after a number, that number and any higher number on that street is within the ZIP Code area indicated. For example:

	ZIP Code 402
Washington Ave.	
1100—Out	03

indicates all house numbers on Washington Avenue from 1100 upward have ZIP Code 40203. All listings not specifically designated as avenue, court, lane, drive, etc., are streets.

HOW TO USE ZIP CODE IN ADDRESSES

The ZIP Code should appear on the last line of both the mailing and return addresses following the city and State. The gap between the State and ZIP Code should not exceed six-tenths of an inch.

Example:

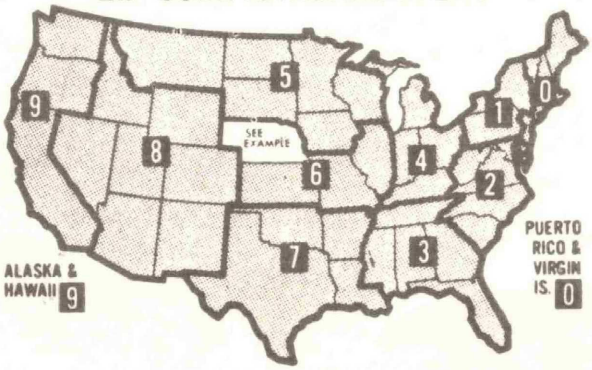
Mr. Harold Jones
3025 Theresa Street
Arlington, Virginia 22207

FOR ZIP CODES NOT LISTED IN THIS DIRECTORY, CALL 981-3422

WHAT IS ZIP CODE?

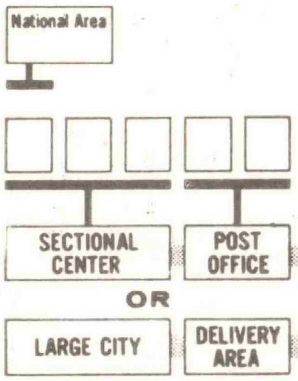
- ZIP Code is a five-digit geographic code that identifies areas within the United States and its possessions for purposes of simplifying the distribution of mail by the U.S. Post Office Department.
- In devising the ZIP Code, the United States and its possessions were divided into 10 large geographic areas. Each area consists of three or more States or possessions and is given a number between 0 and 9.

ZIP CODE NATIONAL AREAS

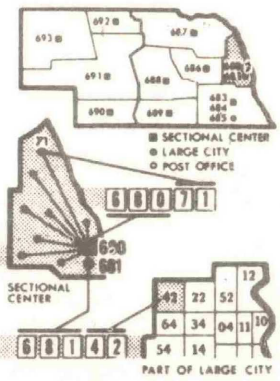


- Because of favorable transportation facilities, key post offices in each area are designated as Sectional Centers. Each Sectional Center post office receives and transmits mail moving *between post offices within its section.* It also receives and transmits all mail moving *into or out of the section.*

WHAT YOUR ZIP CODE MEANS



EXAMPLE



- Together, the *first three digits* of any ZIP Code number stand for either a particular Sectional Center *or* a metropolitan city.
- The *last two digits* of a Sectional Center ZIP Code number stand for one of the *associated post offices* served by the Sectional Center.
- The *last two digits* of a metropolitan city ZIP Code stand for one of the *delivery areas* served by the city post office, its branches and stations.

Save up to 13% on First Class Mail postage.

(It can add up to thousands of dollars.)

If First Class Mail is an important part of your business, the U.S. Postal Service is offering a new service that can provide you with significant savings.

It is called PRESORT, and it can save your company hundreds or thousands of dollars each year in postage costs. For each piece of qualifying First Class Mail, you can save two cents.

The idea is simple. All you do is presort your mail by Zip Code and place it in the special trays the Post Office supplies free. That done, you just deliver them to the Post Office.

Then, this presorted mail is ready to be forwarded almost as soon as you drop it off at the Post Office. Processing time is minimized since this mail will require less handling and save many individual Postal Service operations.

There are a few easy requirements:

1. You must have at least 500 pieces per mailing. The mail must be presorted to 5-digit Zip Codes whenever there are 10 or more pieces for an individual Zip zone. The remaining mail must be presorted to the first 3 digits whenever there are 50 or more pieces. Mail which cannot be separated by 5- or 3-digit Zip Codes counts toward the 500 total if placed in Zip Code sequence but does not qualify for the lower rate. (This is called residual mail.)
2. Payment must be made by postage meter or permit imprint. All pieces must be marked "PRESORTED FIRST CLASS."
3. In submitting the mail, you have to include a mailing statement showing the total volume and volume of qualifying mail.

The annual fee for PRESORT service, to cover administrative costs, is $30. (And that's a small price to pay for the savings you can effect.)

It is obvious that oy saving one cent on every piece of qualifying mail sent out, you can realize savings running into thousands of dollars a year.

For Complete Information

The Postal Service has prepared a brochure providing all the details on how PRESORT works and how simple it is for you to use. You can send for your brochure by writing to:

OFFICIAL ZONE CHART

For Determining Zones From All Postal Units Having ZIP Codes 46301—46499

This zone chart lists the first three digits (prefix) of the ZIP Codes of the sectional center facility of address.

To determine the zone distance to a particular post office, ascertain the ZIP Code of the post office to which the parcel is addressed. The first three digits of that ZIP Code are included in this chart, and to the right thereof the zone.
